GOALS

I plan to use this opportunity to expand my knowledge about business and operations. I am pursuing an Associate of Computer Science degree to enhance my educational and professional skills and apply them in a dynamic workplace. I want to build a long-term career where there are many opportunities for career growth.

AREAS OF EXCELLENCE

- | | | |
|-------------------------------|-------------------------|----------------------|

| • Risk assessment | • Customer service | • Quality assurance |
| • Data driven decision making | • Power tools | • Engine maintenance |
| • Outlook proficient | • Small tools | • Bias for action |
| • Excel proficient | • PIT driving | • Demolition |
-

PROFESSIONAL EXPERIENCE

Amazon

April 2016 - Present

Onboarded as a Fulfillment Associate where I processed outgoing orders and quickly promoted to Seasonal Inventory Control Quality Assurance (ICQA) Process Assistant before promoted to permanent ICQA Process Assistant.

Highlights within Amazon:

- Developed a benchmarking document for special handling facilities network wide.
- Reduced cost by implementing tools across departments and mapping a training guide.
- Lead day-to-day operations through labor decisions with a headcount of 40-60.
- Resolved customer facing issues through a ticketing process and supplier contacts.

The Old Spaghetti Factory

July 2015 – April 2016

I was hired as a Server to entertain guests on an efficient cadence depending on guest needs. In addition, to supporting my fellow coworkers in maintaining overall hospitality by developing rapport with guests and maintaining facility cleanliness.

EDUCATION

Student, Pierce Community College, Goal: Associate Science degree in Computer Science

September 2017 – 2020

COMMUNITY

Internship, No Limits Construction

General contracting tasks using chop saw, sander, hammer and other power and small tools.

September 2018

Internship, Capstone Concrete

Heavy lifting and power tool usage for creating forms or rebar supports for pouring concrete.

July 2018

Volunteer, Lake's Body Shop

Cleaned shop and shadowed mechanics.

July 2013

Personal Experience:

DIY engine dismantle and reassemble for thermostat, radiator, water pump, head gaskets, brakes, rotors, headlights on a 2001 BMW 330i. DIY coilover suspension installation on my 2019 Jetta S.
